Stenographers Are Unfairly Treated Here.

To the Legislature of the Territory of

We, the undersigned attorneys at law and members of the Honolulu Bar, in the interests of the citizens of this Territory, who entrust their lives, their liberties and their property to our care before the Courts of this Territory, respectfully petition your Honorable Body that the salaries of the sten ographic reporters of the First Circuit court of the Territory of Hawaii be fixed at a sum of not less than \$200 per month each, for the reason that the lives, liberty and property interests of such citizens are dependent in every case in which an appeal might be taken, upon the speed, accuracy and correctness of the official phonographic report of the testimony of the witnesses, the objections and exceptions of counsel and of the rulings of the Court during the progress of the trial thereof And we further respectfully urge

that suitable legislation be enacted fix ing the qualification of the applicant for such official position as an ability to report at the rate of at least 160 words per minute for five consecutive minutes, upon matter not previously written by or known to him, immediately read the same back and then transcribe the same plainly and with accuracy, before the person or persons appointed to examine such applicant.

We have the honor to submit here with a form of bill covering such leg-

An Act Fixing the Qualifications of and Providing for an Examination of Official Reporters of the Circuit Court of the First Circuit of the Territory of Hawaii. Be it Enacted by the Legislature or

the Territory of Hawaii: Section 1. No person shall be ap pointed to the position of official Re porter or Stenographer of the Circuit Court of the First Circuit, except upon satisfactory evidence of good moral character and without being first ex amined as to his competency by a Judge of such Court or by one or more members of the Bar as may be design nated by such Judge. The test of com petency shall be as follows: The party examined must write in presence of the examiner at the rate of at least one hundred and sixty words per minute for five consecutive minutes, upon matto him, immediately read the same test satisfactorily the applicant shall of that fact signed by the examiner, which said certificate shall be filed among the records of the Court. To the Legislature of the Territory of

Gentlemen: We, the undersigned ludges of the First Circuit Court of he recritory of Hawaii, earnestly rec ommend and urge that your Honorable Body fix the salaries of the official re porters and stenographers of the First Circuit Court of the Territory of Hawaii at a sum not less than Two Hundred Dollars per month each.

We are satisfied that efficient and capable reporters cannot be secured ous that it demands sustained mental and physical effort covering periods of time that cannot be met except by highly skilled and first-class reporters. It is true that during the past year the reporters of this circuit have been performing efficient service at a salary of \$150 per month, but such services have been rendered and the incumbents

recommendation would be made at this session of the Legislature to fix the salaries of official reporters at what they had been prior to the reduction his own land and either maliciously at the special session of the Legislature and that the reduction then made was to be temporary merely and for the purpose of confining all expenditures to a sum which would not in the aggre gate exceed the total amount realized by taxation until the next regular session of the Legislature.

Experience has taught us that it is worse than useless to employ as official reporters persons who cannot sustain a continued speed of at least one hundred and sixty words per minute for five consecutive minutes, coupled that it be adopted. with an ability to read his notes with facility, for the reason that the lives, liberty and property interests of the citizens of this Territory are depend ent in every ease in which an appeal might be taken upon the speed, accuracy and correctness of the official reporter in taking the testimony of the witnesses, the objections and exceptions of counsel and of the rulings of

an average speed in court reporting, as Mr. Hosmer also stated that at the Saturday, March 25, most charges and letters and documents read during the progress of a trial are read at approximately 175 words a minute and while some testimony is given at over two hundred words a minute, yet the average of tesfred W. Carter, L. A. Thurston, timony, including stops and delays, approximates 160 words a minute. (Signed) J. T. DeBOLT,

The Woodland and Parasites Debated.

A meeting of the Board of Agriculture and Forestry was held yesterday afternoon when matters were considered pertaining to the forest fires, to a proposed legislative bill to protect wooded land from fires due to negligence, tand to some land deals.

At the meeting were President L. A Thurston, Secretary Holloway, Messrs J. F. Brown, A. W. Carter, Superintendent of Forestry Hosmer and Entomologist Craw.

Mr. Hosmer presented a draft of a law to prevent forest fires in future. He stated he had compiled the draft from similar statutes in the United States. In its main feature the bill provides for a fire warden in each district with power to call out people to fight the fire, and makes it a misde meanor for any one to set fire on the property of another, or to set fire on or through negligence to allow it to spread through or over to his neighbor's land. The draft was referred to the Committee on Forestry, consisting of Messrs. Giffard, Thurston and Carter, with instructions to make such amendments as they thought appropriate, with power to immediately forward a copy to the Governor and the legislature with the recommendation

A communication was presented b Jared Smith on behalf of the Farmer's Institute asking the legislature to appropriate \$200 to pay for printing the proceedings of the annual meeting last year. The request was acted upon fa-

request of the Kaimuki Improvement Association he was raising trees for them to plant along the main streets at Kaimuki and Palolo. He stated he other organization which wanted trees to plant along roads. Secretary Holloway presented a num-

ber of communications from Land Com-

missioner Pratt for applications to government lands, requesting the opinion of the board as to whether any of them should be reserved for forestry purposes. The communications were all referred to the committee on forestry in order to secure investigation and report thereon by Mr. Hosmer. An application was presented by the Kohala Sugar Company asking that they be allowed to surrender to the at Awini and Amakao for an approximate equal area of pasture land beyond matter was referred to the Forestry Committee to investigate and to con-

sult with Land Commissioner Pratt. Mr. Hosmer presented a map of the ervation which had just been completed by Mr. Loebenstein at Hilo. The description of the metes and bounds the matter will then be submitted to the Governor for action.

Mr. Hosmer presented a report upon the various forest fires. In each case the evidence indicated the fires had been set on private lands in connection with clearing, and by carelessness had been allowed to spread.

Mr. Craw made a report concerning quarantine inspection of plants. He had been informed that plants were beig imported at Kahului and Hilo, and equested that steps be taken to stop t. The secretary was instructed to correspond with Collector of Customs Stackable to ask him to enforce the law through his customs representatives at those points.

Mr. Craw also presented a letter to himself from Prof. Koebele dated at Fiji. Prof. Koebele had discovered a new parasite to prey on the leaf-hopper which he had forwarded to the Planters' Association experiment station. He 6000 BALES OF GOOD QUALITY had also discovered a parasite for the blight on the alligator pear and banyan trees, and had further discovered a parasite for the horn fly, specimens chasers, of which were shown to the members by Mr. Craw.
